

# NOUVELLE

## UPCYCLED SILKPAD

FROM LEFTOVER PRINTED SILK ROLLS HIGH QUALITY FABRICS

1

### FROM LEFTOVER SILK FABRICS

We collect as "end of waste" silk fabric scraps from leftover silk fabric rolls

2

### RAW MATERIAL AFTER GARNET

This is the raw material after garmet and before decolor process

3

### DECOLOR PROCESS

This is how the raw material appears after decolor process. This step involves the use of GOTS approved substances.

4

### FINAL PROCESS

Final padding composition is made of 60% silk blended with 40% PLA - scrim in PLA 18gr/sm. Available on request additional scrim/nonwoven made of 100% PLA
